Since we can make shipments almost every day during the Winter, practically all of our stock is freshly dug to fill orders and is brought to the warehouse for packing and shipping.

Satisfied Customers

WE NOTICE that even in the nursery business some firms operate smoothly and successfully year after year.

The secret inevitably is "Satisfied Customers."

As long as we keep as our goal "Satisfied Customers," we know we are on safe ground.

PORTLAND ROSES

The roses we offer below are all grown near Portland in good sandy loam soil, entirely without irrigation, thus securing a particularly fine root system, and firm, well ripened wood. They are all budded extremely low.

PLEASE NOTE. Our roses are tied in bunches of ten, and we do not break the bunches at the per ten price. If less than ten are ordered the price is 2½ cents higher per plant.

BULBS

The war in Europe has brought about a drastic change in the bulb market, and it seems likely that very few, if any, bulbs will be imported this season.

With the exception of Tulips, however, the domestic supply will possibly be fairly adequate. We have very little left to offer in Tulips, but your inquiries for GLADIOLUS, IRIS, LILY and NARCISSUS bulbs will be appreciated and given our careful attention.

REPRESENTATIVE

A CORPORATION may spread itself over the whole world and it may employ a hundred thousand men, but the average person will usually form his judgment of it through his contact with one individual. This individual may be the information clerk in a branch office. If this person is rude or inefficient, it will take a lot of kindness and efficiency to overcome the bad impression.

Every member of an organization who, in any capacity, comes in contact with the public is a salesman, and the impression he makes is an advertisement, good or bad.

It takes a genius to make salesmen out of 100,000 men and women, but those of us who have smaller organizations should be able to accomplish this without "genius."

William Feather.
